## Resistance Welding Seminars

### In-plant Seminar Outline – *At your facility*

**Classroom Training** includes the following sessions:

- Basics of Resistance Welding
- Resistance Welding Terms
- Pneumatic Systems and Troubleshooting
- Welding Transformer Operation and Troubleshooting
- Weld Control Operation and Troubleshooting
- Basic Welder Setup
- Electrode Selection and Care
- Quality Weld Assessment
- Identifying Problems and Finding Solutions
- Operational Safety
- General Question and Answer Period

### **Hands-On Session**

- Reinforcing classroom training with a hands-on approach utilizing your resistance welding equipment.

***Approximate Time Required – 6-8 hours minimum for classroom and hands-on training.***

### ***In-Plant Seminars Are Tailored to Your Needs!***

We will concentrate and tailor the sessions on the type of resistance welding process you do. Seminars are performed by Service Technicians with years of hands on experience.

### ***Abbreviated Operator Seminars available at your request***

This 4-5 hour seminar will concentrate more toward an operators needs including Basic Resistance Welding, Welding Terms, Quality Weld Assessment, and Weld Setup if required.

In-Plant Seminars are performed at T. J. Snow Company's normal per diem Service Rates (See T. J. Snow Company Service Rate Sheet).

T. J. Snow Resistance Welding Seminar Manuals are suggested for each seminar cost for each Manual is \$21.50.
